DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by applicants' own admission in the instant specification.

3. On page 4, lines 19-23, of applicants' specification it is acknowledged that 5,5-dimethyl-2-oxo-2-methoxy-1,3,2-dioxaphosphorinane is known as a lubricating oil component. Since applicants' claims are directed to a composition and not to a method of using said composition as a flame retardant, said acknowledgement constitutes anticipation. "Flame retardant" is the intended use, and as such, it has no patentable significance. A compound which can be represented by applicants' formula (I) is known and accordingly applicants' claims are not novel.

Allowable Subject Matter

4. Claims 4-8 and 10-14 re objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Any inquiry concerning this communication or earlier communications from the
